Subject: Deficient Notice of Intention to Commence Small Mining Operations, Colored Rock Company, Flossie Mine, S/055/0028, Wayne County, Utah

Dear Mr. and Ms. Brown:

The Division of Oil, Gas and Mining has reviewed the referenced Notice of Intention to Commence Small Mining Operations (NOI), and the following items will need to be addressed before the NOI can be determined complete:

1. Please list the registered Utah agent
2. The names listed with the Division of Corporation do not match the names listed as managers. The Division of Corporation lists Lynda Brown and Joe Earl Brown while the notice lists Lynda Brown and Joshua Joe Brown.
3. Please include the quadrangle map name which is Flossie Knoll.
4. Please show the location of the mine on the Flossie Knoll quadrangle map, a copy of which is enclosed and which you may use. Please also and show the route(s) to reach the mine on a map, such as the Loa 1:100,000 US Geological Survey map. A copy of this map is also enclosed. The routes should begin at a paved road or known geographic location. These general location maps are important for Division inspectors to be able to find the site.
5. The Google Earth photo included with the NOI shows the borrow area as 400 feet by 400 feet with an area outside of the borrow area for brush and topsoil storage. The area for brush and topsoil storage must be included as part of the disturbed area. Please adjust the acreage.

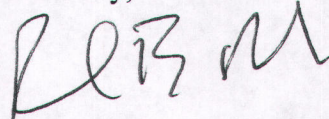

Please provide your response as replacement pages to the original NOI, using Form MR-REV-SMO/EXP, available on the Division's web site at www.ogm.utah.gov.
